

Emanuele "Lele" Calo

✉ emanuele.lele.calo@gmail.com in [LinkedIn](#)  [GitHub](#)  [personal website](#)

Current role	Head Of Infra at Linera and Self Employed IT Kubernetes/*nix/Linux/Cloud specialist at sshAdm.in
Experience	Cryptocurrency, Insurance, Ticketing, Telecommunications
Technologies	AWS, Docker, Kubernetes, GCP, Linux, Terraform, Rust, TypeScript, Azure, Go, MongoDB, Python, Postgres, Cassandra, VMware...

At work I'm best at...
a company that aligns with my values of the greater good for all human beings.
Working at a crypto giant enlightened me on how much I care on cooperating with companies where I bring "some real value" for everybody

Work experience

Head Of Infra, Linera  Jul 2025 - Present (1m)

Cryptocurrency new distribute L1 blockchain
Cryptocurrency

AWS Docker Kubernetes GCP Linux Terraform Rust

- Led infrastructure architecture for cutting-edge L1 blockchain platform
- Designed validator/node infrastructure for distributed consensus network
- Mentored Rust developers on best infrastructure practices
- Implemented Kubernetes, AWS, OpenTofu, ArgoCD at scale
- Served as Staff Engineer facilitating communication between technical teams and stakeholders

Self Employed IT Kubernetes/*nix/Linux/Cloud specialist, sshAdm.in  Apr 2012 - Present (13y 4m)

Self Linux based web hosting

Kubernetes Linux

- Side-gig I keep around all the time to host my own and a few friends/relatives websites on some dedi servers
- This is mostly using Ubuntu/Plesk/Hetzner/Cloudflare/borgbackup/Docker as I think that's the best combo around (right now) for self-hosting with close to zero maintenance
- This is also a good sandbox/testing/learning environment for myself as I experiment with new technologies (on dedicated VMs)

Blockchain cultist, DevOps / SRE, Blockchain Engineer, Switchboard  Mar 2024 - Jul 2025 (1y 4m)

Multichain Oracle based on Solana
Cryptocurrency

AWS Kubernetes TypeScript GCP Linux Terraform Rust Azure

- Developed applications using Rust and Typescript for the Solana blockchain

- Provided mentorship on infrastructure best practices to junior and mid-level engineers
- Excelled as a Senior DevOps contributor proficient in Kubernetes, AWS, Terraform, Linux, and Typescript
- Led as Staff Engineer, partnering with cross-functional teams to meet infrastructure needs and plan for the future

Lead SRE, Tint.ai

Jan 2023 - Jan 2024 (1y)

Insurance AI company
Insurance

AWS Kubernetes TypeScript Linux Go Terraform

- Led cloud infrastructure decisions
- Mentored junior and mid-level engineers on best practices
- Senior DevOps expert in Kubernetes, AWS, Terraform, Linux, and Typescript
- Served as Staff Engineer, collaborating with teams to address infrastructure requirements

Sr DevOps & SRE, Kraken Asset Exchange

Mar 2022 - Nov 2022 (8m)

Among the World Largest Crypto Exchange companies
Cryptocurrency

DevOps + Support Engineer and Kubernetes Wizard, Teleport

Jul 2017 - Jan 2021 (3y 6m)

AWS Kubernetes Go Postgres Cassandra VMware vSphere

- Participated in the on-call rotation for infrastructure as a Site Reliability Engineer (SRE).
- Mentored junior and mid-level engineers on best practices.
- Served as a senior DevOps individual contributor with expertise in Kubernetes, AWS, Terraform, Linux, and MongoDB.
- Acted as the Staff Engineer, engaging with other teams and stakeholders to address infrastructure needs and plan for the future.

Boutique Web hosting company
Telecommunications

Python Linux Postgres Ansible MySQL Puppet

- Managed on-call rotation as an SRE for infrastructure.
- Led a technical team of 10 individuals.
- Automated Linux systems for web hosting.

Education

Università Mercatorum

Oct 2020 - Present (4y 10m)

Bachelor Degree, Computer Engineering

More about me

My favourite technology is...

Kubernetes or Nomad.. or similar orchestration systems.
There's just something magical about self-healing infrastructures and seeing tasks/jobs moving around autonomously

At work I'm best at...

a company that aligns with my values of the greater good for all human beings.
Working at a crypto giant enlightened me on how much I care on cooperating with companies where I bring "some real value" for everybody

Interests

|| very active Scout Leader for the non-religious Italian Scout Association CNGEI
|| acrobatic gymnastics noob
|| tinkerer, maker, tech-enthusiast, crypto-enthusiast

I like to work with people who...

are informal, friendly and genuinely care for each other. I simply don't feel at ease in highly competitive environments as I'm just not the type of person that likes to crush others

Outside of work I...

I'm also a noob streamer (@LeleOnGaming on Twitch and YouTube) and overall an avid gamer (of all kinds) player, motorbike enthusiast and electronics tinkerer (Arduino, Raspberry, 3D printing, etc..)

Languages

English, Italian, Spanish
